

Beavers Are Awesome!

Beavers make dams to create ponds.
They live in lodges with their families which are built from sticks and muds in their ponds.

Beavers Are Super Heroes!

Their hard work also makes important and safe homes for all kinds of other plants and animals, including some that are endangered or at risk of disappearing!

Beavers Need Our Help!

Some people don't know how awesome beavers are, and they need to hear just how amazing our national animals are from people like you!
